

LUCKNOW METRO TO HOST UNIQUE PHOTO WALK ON WORLD PHOTOGRAPHY DAY

*40 Photographers to Capture the City's
New Shades Through a Moving Lens*

Lucknow, August 2026: On the occasion of World Photography Day, Lucknow Metro is set to become a moving canvas of creativity. On 19 August 2026, a special photography exhibition and photo walk inside a running metro train will bring together around 40 photographers, offering them an opportunity to capture Lucknow through a fresh and creative perspective.

Titled “Lucknow Metro Through the Lens,” the initiative is being presented by UPMRC and Kunwargraph Photography. The event will combine a photography exhibition with a hands-on photo walk, allowing participants to explore the city, its people, architecture, movement, light and everyday moments through their cameras.

The event is curated by Bhupendra Kumar Asthana, a noted artist and art critic. The concept moves beyond the traditional gallery space and transforms the metro into a dynamic photographic environment. The idea is to encourage photographers to look beyond the obvious and discover stories hidden in ordinary surroundings.

Young photographer Kunwar Ji will serve as the mentor for the photo walk. Participants will receive practical guidance on composition, framing, light and shadow, decisive moments, street photography and documentary photography.

The moving metro will itself become an important element of the photographic experience. Changing cityscapes seen through the windows, passengers, reflections, architectural lines, station structures, patterns of light and shadow, and fleeting moments created by movement will provide photographers with numerous opportunities to create distinctive frames.

The programme will be attended by Shri Sushil Kumar, MD, UPMRC, and eminent photographer Shri Anil Risal Singh as special guests. Anil Risal Singh has recently been selected for the prestigious Associate of Photographic Society of America (APSA) distinction in recognition of his contribution to photography and sustained creative excellence.

A two-day photography exhibition will also be held at Hazratganj Metro Station, showcasing photography as a medium through which the character and visual identity of Lucknow can be explored.

The programme is scheduled for Wednesday, 19 August 2026, from 12:30 PM onwards, at Hazratganj Metro Station, Gate No. 1, Royal Cafe Side Entry.

The event will also feature hands-on equipment review supported by Godox, PGYTECH and FeiyuTech, giving participating photographers an opportunity to experience photography equipment in a practical setting.

More than simply a photography event, “Lucknow Metro Through the Lens” seeks to create a new visual conversation about the city—where the metro becomes not just a mode of transport, but a moving frame through which Lucknow’s people, architecture, energy and everyday stories can be seen and captured.
